Vision®

Vision 4.1

Declaration of Conformity

1 Declaration of Conformity

Description

Vision is fully validated software for acquisition and analysis of data from Metrohm NIRSystems analyzers. As integrated software, Vision includes all tools necessary for near-infrared analysis: Data Acquisition with instrument drivers, the Chemometrics module with multiple data pretreatment methods, and a Routine Analysis function with extended charting options.

Vision Pharma and Vision Multi Pharma software is compliant with 21 CFR Part 11 regulations and ready to use in the cGMP environment.

Vision runs under Windows™ Vista, Windows™ 7, Windows ™ 8 or Windows™ 10, including both 32-bit and 64-bit operating systems.

Technical specifications

Technical specifications are defined in the Installation documentation.

Software validation

Vision was validated with respect to functionality, analytical performance, and accuracy of results. The software functions are documented in accompanying information supplied with Vision.
