Comprehensive Detection Capabilities

Identify more samples in more settings with TacticID-1064 ST

HIGHLIGHTS

- Easy-to-use onboard guides
- Broad and detailed libraries - the largest available from any manufacturer
- Clear and accurate results, even for complex or brightly colored substances
- See-through analysis allows users to identify container contents without opening them
- Ideal for fieldwork and on-site inspections

Ω **Metrohm**

Premier Material Identification

No matter the location or the challenge, TacticID-1064 ST identifies more samples. Feel empowered to explore new possibilities and tackle any environment with ease.

Unstoppable Versatility
TacticID-1064 ST an indispensable tool for first responders, hazmat teams, and customs agent who require versatility and precision in their work. Wherever the work is, whatever the danger, the TacticID-1064 ST is there to adapt and conquer.

See the Unseen
The groundbreaking "see through" analysis feature significantly expands the device's application range, enabling users to perform non-invasive, no-contact scans with confidence. TacticID-1064 ST enhances the safety, efficiency, and accuracy of unknown materials identification.

Freedom to Explore
No terrain is too tough, no environment is too extreme, TacticID-1064 ST has the answer when and where it is needed. Metrohm's comprehensive library significantly enhances the device's versatility, enabling users to confidently identify thousands of substances.

ORDERING INFORMATION

Packages	
29530020	Advanced Package TacticID-1064 ST Includes all Smart Attachments for diverse applications in any environments.
29530010	Basic Package TacticID-1064 ST All the essentials for establishing material identification applications.
