**Vision Air - Universal spectroscopy software**

Vision Air Pharma Network Complete is a modern and simple-to-operate software solution for use in regulated environments. The network version enables the structuring of a global server-client network with a central database.

Overview of the advantages of Vision Air:

- Individual software applications with adapted user interfaces ensure intuitive and simple operation
- Centralized data and instrument management
- Simple configuration and updating of several devices in just a few steps
- In compliance with all requirements pursuant to Title 21 CFR Part 11

The Vision Air Network Pharma version (66072203) contains the following applications:

- Application for instrument and data management
- Application for routine analysis

Select this version when you already have a software for method development (Vision, PLS\_Toolbox or Unscrambler®) and work in regulated environments.

The Vision Air Server version software is required for one-time use for structuring a server-client network with Vision Air Network (order number: 6.6072.203).

Select this version for use in regulated environments.
